

RSuite

PUBLISH

Complete Design Toolkits

Enable Loose-Leaf Publishing

Integrate with RSuite CCMS

Publish into Multiple Formats

Next Generation XML Publishing

RSuite® Publish is an XML publishing system, fully integrated into RSuite Standard and Enterprise that combines a powerful rendering engine with a stylesheet development toolkit for publishing complex, highly-styled DITA documents.

RSuite Publish provides design tools to easily create and customize stylesheets. Whether you have a single author, or a team of authors, RSuite Publish can get your data where it's needed in a form that maximizes its value.

RSuite Publish can be integrated with RSuite CCMS products, RSuite® Standard and RSuite® Enterprise; along with DITA and XML editing tools using free plug-ins for *XMetal* and *oXygen*.

RSuite Publish is perfect in automated environments, including server-based integrated applications based around content management systems. Its API interface integrates easily with popular DITA and XML authoring tools and third-party applications.

SOFTWARE FEATURES

- » Integrate with other Contiem component content management software and services.
- » Design and customize content with stylesheet design tools.
- » Auto-generate indexes, tables of contents, PDF bookmarks, cross-referencing and hyperlinks.
- » Create outputs from any DITA document instantly with out-of-the-box stylesheets.
- » Store stylesheets and use them to generate output documents on demand.
- » Enable loose-leaf publishing with versioning and differencing, release packs, filing instructions, and list of effective pages.
- » Experience a point and click interface with stylesheeting; a graphical page layout editor, and automatic stylesheet generation for new document types.
- » Utilize CALS and HTML tables, automatic footnotes, side notes, and floats.

RSuite Publish excels when XML content must be delivered in several formats and/or at frequent intervals. Users can define the styling requirements for multiple output formats with a single stylesheet in a fraction of the time required by traditional methods.

BENEFITS OF USING OUR SOFTWARE & SOLUTIONS

Contiem's software has a global user community that works with our product development team to improve our products. Our user base plays a critical role in shaping the way we upgrade and maintain our software.

All RSuite users have 24/7 access to Contiem Connect for product documentation and support.
