

Configurable to Authoring Tools

Utilize Stylesheet Design Toolkit

Enable Looseleaf Publishing

Publish XML into Multiple Formats

Next Generation XML Publishing

TopLeaf is a browser-based standalone application for creating, editing, and managing TopLeaf stylesheets. TopLeaf includes a web service component, a stylesheet manager interface, and the tools needed to build and maintain stylesheets.

Whether you are a single author or an authoring team, TopLeaf can get your data where it's needed in a form that maximizes its value. TopLeaf can transform any valid XML into PDF, RTF, HTML, and eBook formats. TopLeaf can be integrated within any CMS, including RSuite® Standard and RSuite® Enterprise, CCMS solutions from Contiem.

TopLeaf delivers next generation XML publishing using standards-based HTTP protocols, providing access to TopLeaf's proven publishing functionality within both on-premises and cloud-based infrastructures.

SOFTWARE FEATURES

- » Design and customize content with stylesheet design tools.
- » Auto-generate indexes, tables of contents, PDF bookmarks, cross-references and hyperlinks.
- » Create outputs from any XML document instantly with out-of-the-box stylesheets.
- » Integrate with XML and DITA editing tools using plugins for XMetaL and oXygen.
- » Implement loose-leaf publishing with versioning and differencing, release packs, filing instructions, and a list of effective pages.
- » Quickly create complex output formats using built-in stylesheet tools.
- » Utilize CALS and HTML tables, automatic footnotes, side notes, and floats.
- » Incorporate Advanced Mathematical equations and expressions described with MathML.
- » Generate output documents on demand utilizing saved stylesheets in your repository.
- » Use automatic hyphenation for 30 European languages and more.
- » Produce SCORM 1.2-compliant output format.
- » Output to versatile HTML5 format.

TopLeaf creates accessible PDFs for 508, WCAG, and European Accessibility Act compliance.

TopLeaf's API interface integrates easily with popular DITA and XML authoring tools and is perfect in automated environments, including server-based integrated applications based around content management systems.

BENEFITS OF USING OUR SOFTWARE & SOLUTIONS

Contiem has a global user community who work with our product development team to improve our products. Our user base plays a critical role in shaping the way we upgrade and maintain our products.

All Contiem clients have access to our help desk portal, Contiem Connect, for product documentation and support.
