TopLeaf

Configurable to Authoring Tools

Utilize Stylesheet Design Toolkit

Enable Looseleaf Publishing

Publish XML into Multiple Formats

Next Generation XML Publishing

TopLeaf is an XML publishing system that combines a powerful rendering engine with a stylesheet development toolkit to create complex, highly-styled outputs. Whether you are a single author or an authoring team, TopLeaf can get your data where it's needed in a form that maximizes its value.

TopLeaf can be integrated within any CMS, including RSuite® Standard and RSuite® Enterprise, CCMS solutions from Contiem. Or take advantage of our free TopLeaf DITA plug-ins for XMetaL and oXygen authoring environments.

Together with TopLeaf Web Services, TopLeaf delivers next generation XML publishing using standards based HTTP protocols, providing access to TopLeaf's proven publishing functionality within both on-premises and cloud-based infrastructures.

SOFTWARE FEATURES

» Design and customize content with stylesheet design tools

» Auto-generate indexes, tables of contents, PDF bookmarks, cross-referencing and hyperlinks.

» Create outputs from any DITA document instantly with out-of-the-box stylesheets.

» Integrate with XML and DITA editing tools using plugins for XMetal and oXygen.

» Enables loose-leaf publishing with versioning and differencing, release packs, filing instructions, and a list of effective pages.

» Quickly create complex output formats using built-in stylesheet tools.

» Utilize CALS and HTML tables, automatic footnotes, side notes, and floats.

» Advanced Mathematical equations and expressions described with MathML are supported.

» Generate output documents on demand utilizing saved stylesheets in your repository.

» Hyphenation for 30 European languages and more.

» Produce SCORM 1.2 compliant output format.

» Versatile HTML5 output format.

TopLeaf publishes complex XML and DITA content with ease, creating multiple output formats in a fraction of the time required by traditional methods.

» **TopLeaf's API interface integrates easily with popular DITA and XML authoring tools and is perfect in automated environments, including server-based integrated applications based around content management systems.**

BENEFITS OF USING OUR SOFTWARE & SOLUTIONS

Contiem has a global user community who work with our product development team to improve our products.

Our user base plays a critical role in shaping the way we upgrade and maintain our products. All Contiem clients have access to our help desk portal with product documentation and support.
