

HelpStudio SUITE

HelpStudio Suite™ – Create, publish, and maintain user help and developer documentation from a single source

HelpStudio Suite unifies HelpStudio and Document! X into one end-to-end authoring and publishing solution. It empowers technical writers and developers to collaboratively create professional user assistance, developer guides, and API documentation—all from a single, maintainable project source.

Key Benefits

Single-Source Publishing – Generate multiple outputs—Web Help, PDF, API Reference—from one source

Faster Authoring – Combine automated documentation for codebases with a full WYSIWYG editor for custom content

Global Reach – Built-in localization and Unicode support for multi-language delivery

Consistent Branding – Easily adapt templates and CSS to your organization's look and feel

Key Features

Unified Authoring Environment

- Combine developer and end-user documentation within one project
- WYSIWYG authoring, page maps, hyperlink designer, and table editing
- Unlimited undo/redo and live preview during editing

Automated API Documentation

- Automatically generate reference documentation for .NET, COM, Java, JavaScript, REST APIs, Databases, and XSD Schemas
- Use the Visual Comment Editor and Visual Studio Integration for streamlined updates
- Generate object model diagrams and auto-colored code examples

Customizable Templates & Layouts

- HTML-based layout templates built on web-standard CSS
- Adapt standard phrases, table-of-contents structures, and terminology to your brand
- Build booklets, print-ready PDFs, and responsive Web Help for desktop, tablet, and mobile

Localization & Multi-Language Support

- Author and manage content for multiple languages within a single project
- Full Unicode support for Japanese, Chinese, Korean, and European alphabets

Customer Success

“HelpStudio Suite lets our writers and developers work from one source—no duplication, no delays. We deliver polished, consistent documentation faster than ever.”

– Independent Software Developer

Professional Services

Contiem’s Professional Services team supports HelpStudio Suite implementation and customization:

- Branding, CSS, and template design
- Integration with build pipelines and version-control systems
- Localization and translation workflows
- Author training and publishing best-practices consulting

| Feature | HelpStudio Suite™ | MadCap Flare | Document360 | ReadMe |
|-------------------------------|-----------------------------|-------------------------|-------------|---------------|
