

RSuite® Review – Auditable Collaborative Content Review

RSuite Review is an add-on to RSuite that eliminates the complexity of managing content reviews through emails, PDFs, and Word documents by providing a centralized, secure, web-based environment for collaborative review. With automated workflows, real-time collaboration, direct sync back into RSuite source XML, and a fully reportable audit history, RSuite Review enables confident, controlled, and efficient review cycles.

Key Benefits

Faster Reviews: Accelerate review cycles while eliminating slow, error-prone processes and manual overhead

XML Accuracy: Maintain structured content integrity with precise XML mapping and clean synchronization of approved changes

Simplified Collaboration: Connect internal teams and external SMEs through secure, browser-based access

Controlled Feedback: Enable interactive commenting while maintaining moderator control over review workflows

Audit Visibility: Track complete, time-stamped review activity with comprehensive, reportable audit trails

Key Features

Reviewer Portal & Access

- Secure, web-based reviewer portal with no installation required
- Access for internal teams and external stakeholders
- Centralized environment for all review activities

Collaboration & Commenting

- Inline, object-level, and paragraph-level commenting
- Comment on pages, tables, lists, images, or precise text selections
- Real-time collaboration with concurrent multi-user reviews

Review Management & Moderation

- Assign individual reviewers or groups and set due dates
- Accept or reject comments with built-in moderation controls
- Maintain full control over review cycles and participation

Workflow Automation & Notifications

- Launch manual or automated review workflows from RSuite
- Automated email notifications, reminders, and review triggers
- Real-time visibility into review progress and activity

XML Sync & Audit

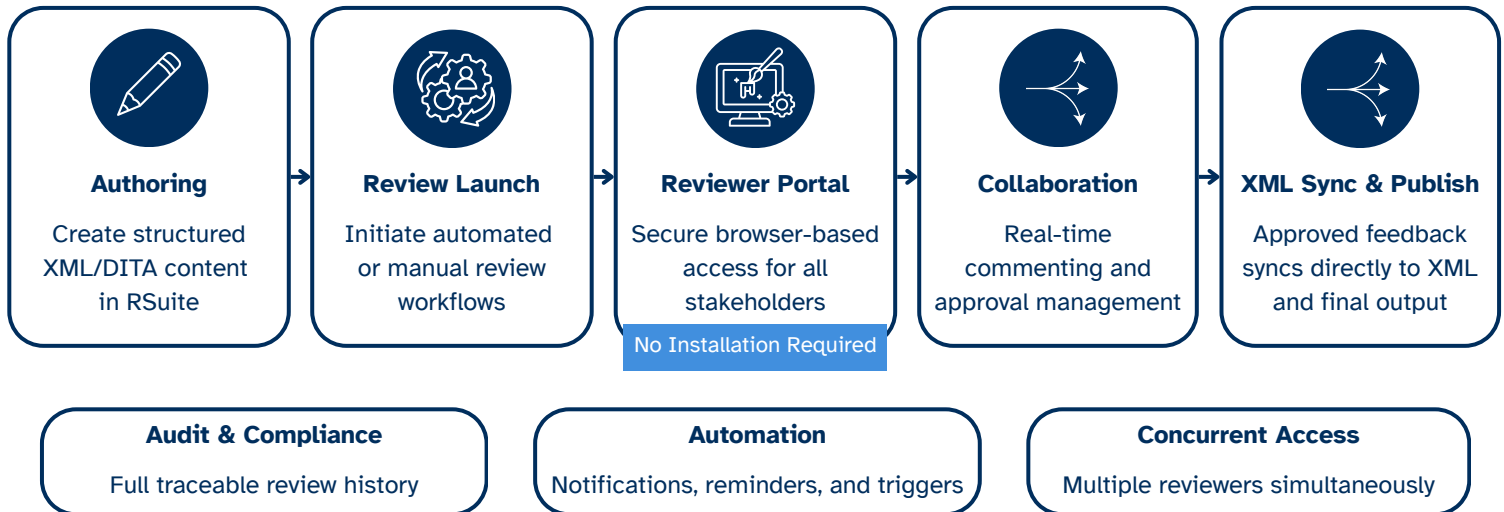

- Approved feedback syncs directly into RSuite XML source
- Conref-aware updates ensure consistency across DITA content
- Comprehensive, time-stamped, fully reportable audit history

Professional Services

- Implementation and onboarding for structured content workflows
- Integration with RSuite Enterprise and XML/DITA ecosystems
- Workflow configuration and customization for team-specific needs
- Training, support, and optimization for ongoing success

RSuite Review Workflow

Industries & Use Cases

- **Technical Documentation:** DITA/XML-based authoring and multi-stage review cycles
- **Engineering & Manufacturing:** Product manuals, maintenance documentation, and specifications
- **Life Sciences & Regulated Industries:** Compliance-driven review with full audit trails
- **Standards Organizations & Publishing:** Peer review and controlled content validation
